

PROTECTING
YOUR WORLD

WAR BIRD™

INNOVATION

THAT ELEVATES HUMAN PERFORMANCE

At WarBird™, we seamlessly bridge the legacy of military and law enforcement expertise with the dynamic ingenuity of the civilian world. Our commitment is to empower individuals with equipment that preserves and enhances their world—driven by a passion for innovation, unwavering quality, and a deep respect for your safety and style. We are dedicated to crafting quality, stylish, high-performance protective gear made exclusively for you: the private, law-abiding citizen. Our Mission: Protecting Your World.

PROTECTIVE EYEWEAR & SUNGLASSES

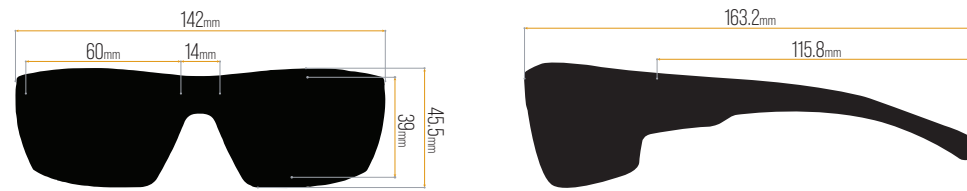

UV & IMPACT PROTECTION · VISION-ENHANCING POLARIZATION · CONFIDENCE-INSPIRING STYLE & COMFORT

EYEWEAR MODELS FEATURING HIGH RESOLUTION LENSES

FUSILLADE

The **Fusillade** lives up to its name by providing style, protection, our full suite of technologies including **4SHADOW** technology lenses, **bio-based TR90** frame, **ANSI Z87.1-level safety rating**, as well as side ventilation for anti-fogging and fresh air for the eyes. The temples are designed for increased comfort when wearing headphones or ear protection.

EYEWEAR MODELS FEATURING HIGH RESOLUTION LENSES CONTINUED

DEAD SPACE

Similar in styling to our Easy Day, the **Dead Space** offers **4SHADOW** lens technology with **removable side shields** for added protection when the time comes for **ANSI Z87.1-level safety**. With this feature, **Dead Space** can serve you double duty in and out of harm's way with a simple click.

EASY DAY

Every once in a while, we all like to enjoy an easy day. The WarBird Easy Day tones things back just a touch with classic styling, while also providing all the benefits of our WarBird technology. While the lenses still offer impact protection, these frames do not qualify for Z87.1 due to the reduced side coverage, so we recommend reserving these for your easy days.

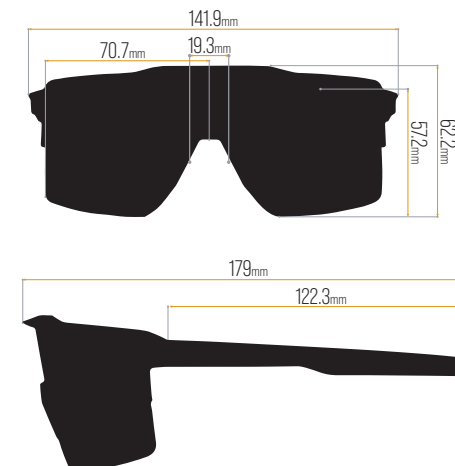

ENFILADE

Whether you define an enfilade as a volley of gunfire or a suite of rooms all in a line, you'll see how WarBird's Enfilade eyewear features a lineup like a checklist of what any eyewear should have.

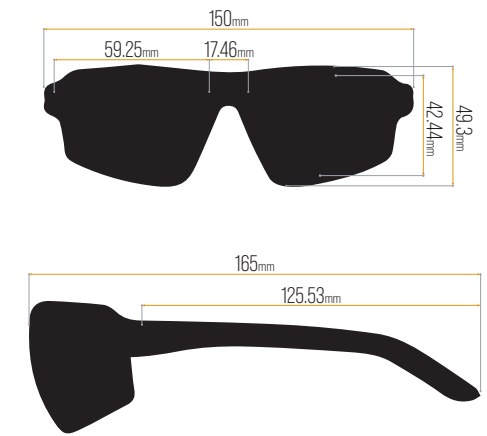

GHOST WOLF

Ghost Wolf brings forth a mono-shield design for an uninterrupted field of view and integrates 4Shadow lens technology and vents for enhanced moisture control. Lightweight, stylish and complemented by WarBird's full suite of features and technology.

SLEEPER CELL

The Sleeper Cell may just become your all-day, everyday glasses. What may appear at first glance to just be a set of style-forward sunglasses is actually hiding WarBird's full spectrum of protective and sight-enhancing features. The Sleeper Cell is the pair you wear from the car right into your activity, without skipping a beat.

WARBIRD LENS COLLECTION

WarBird offers a variety of lenses in **High Resolution (HR)**, **High Contrast (HC)** and **Photochromic (Photo)** variants, each one specifically designed to enhance your vision while outdoors or on the job.

ICE BLUE SHIELD | SMOKE TINT HR
FULL SUN - LIGHT TRANSMITTANCE: 13%
Hydrophobic lens treatment helps repel water and fingerprint smudges.

PINK SHIELD | BROWN TINT HR
FULL SUN - LIGHT TRANSMITTANCE: 16%
Oleophobic lens treatment helps repel water and fingerprint smudges.

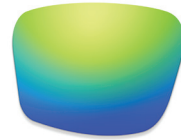

RED SHIELD | ROSE TINT HC
FULL SUN - LIGHT TRANSMITTANCE: 15%
The blue-light blocking abilities of this combination is great in snowy, icy conditions or even the concrete tundra of the city.

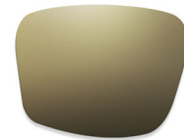

SMOKE HR
FULL SUN - LIGHT TRANSMITTANCE: 13%
Anti-Scratch and Anti-Fog Lens Coatings keep things clear even in humid environments.

BROWN HC
VARIABLE LIGHT - LIGHT TRANSMITTANCE: 16%
Anti-Scratch and Anti-Fog Lens Coatings to keep things clear.

GREEN SHIELD | SMOKE TINT HC
FULL SUN - LIGHT TRANSMITTANCE: 11%
This green-smoke combination is great for environments with frequent, unexpected glare exposures.

BROWN HR
FULL SUN - LIGHT TRANSMITTANCE: 13%
Oleophobic lens treatment helps repel water and fingerprint smudges.

SMOKE HC
FULL SUN - LIGHT TRANSMITTANCE: 15%
Anti-Scratch and Anti-Fog Lens Coatings to keep things clear.

BLUE SHIELD | SMOKE TINT HC
FULL SUN - LIGHT TRANSMITTANCE: 14%
This is the ideal combination for water and snow sports on a bright day.

ICE GREEN SHIELD | BROWN TINT HR
FULL SUN - LIGHT TRANSMITTANCE: 18%
Oleophobic lens treatment helps repel water and fingerprint smudges.

RED SHIELD | BROWN TINT HC
FULL SUN - LIGHT TRANSMITTANCE: 16%
The red coating will reduce eye strain and fatigue by blocking blue lights—ideal for snow sports.

PHOTOCHROMIC
VARIABLE LIGHT - LIGHT TRANSMITTANCE: 88%-14%
Anytime you know your activity will take you through different lighting situations (such as night into day or day into night), photochromic lenses should be your choice, because they adjust automatically to the amount of sun exposure. Anti-Scratch and Anti-Fog Lens Coatings to keep things clear.

RED SHIELD | SMOKE TINT HR
FULL SUN - LIGHT TRANSMITTANCE: 13%
Oleophobic lens treatment helps repel water and fingerprint smudges.

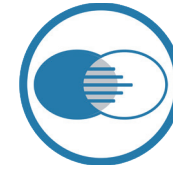

YELLOW HC
VARIABLE LIGHT - LIGHT TRANSMITTANCE: 28%
Anti-Scratch and Anti-Fog Lens Coatings keep things clear.

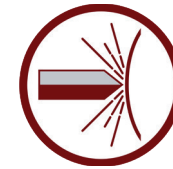

ASHADOW

CLARITY DEFINED WITH UNMATCHED PROTECTION

Offered in **multiple lens colors** for the ideal level of contrast and clarity in varying light conditions. **UV 400** rated to block wavelengths up to 400 nanometers, including harmful **UVA** and **UVB** rays while enhancing colors in **high resolution**. **Impact resistant** for unparalleled **eye protection**.

POLARIZED
Cut through the glare and provide unwavering clarity.
(Not available on photochromatic lenses)

IMPACT RESISTANCE
Unbreakable confidence that stands firm.

ANSI Z87.1 - 2020
(Not available on Easy Day frames due to lack of side coverage)

IMPACT PROTECTION REQUIREMENTS:
Drop Ball Impact Resistance (1" steel ball (68g) dropped from 50")
High Mass Impact (pointed projectile weighing 500 g dropped from 50")
High Velocity Impact Test (.25" steel ball (1.04g) traveling at 150 fps)
Penetration Test (needle fastened to a holder (44.2 g) dropped from 50")
Minimum coverage area/side coverage

HIGH RESOLUTION
Creates razor sharp vision and brings every pixel to life.

100% UV & UVB PROTECTION
Offers an impregnable defense that shields your eyes.

Kaiwall™ WARBIRD FRAMES Sustainable Strength, Uncompromising Performance

High flexural strength for incredible resiliency

Impact resistance for protection against drops and impacts

Excellent surface quality for that sleek and stunning look

Lightweight means comfort you can wear all day long

Chemical resistance helps maintain their pristine look for the long haul

Environmentally friendly - made with 54% bio-content

ELECTRONIC HEARING PROTECTION

EXPERTLY DESIGNED FOR OPTIMAL PROTECTION AND COMFORT

In designing our hearing protection, we knew that beyond simple decibel reduction, we also needed to create something that we would want to wear. **WarBird** hearing protection needed to be efficient, comfortable, and packed with features that professionals who “live in” hearing protection would appreciate. Whether your needs are for heavy equipment operation, shooting sports, yardwork, or just to tune out unwanted noise, **WarBird** has your solution.

SUPERIOR SOUND QUALITY

Electronic hearing protection has been a great advancement; we no longer have to sacrifice hearing the outside world while protecting ourselves. Our integration of modern headphone audio technology is intended to give you accurate audio perception of the world around you, while still offering protection.

- Full Dynamic Range HD Speakers for Clear, Balanced Sound (40mm, 20 ohm)
- High-Definition Sound Effects
- Two Omnidirectional Microphones
- Low Frequency Tuned for Natural Sound Clarity
- Sound Active Compression - 0.01 Second Reaction Time
- 2 mS Attack Time - Superior protection against damaging noise levels
- NRR 23dB (Noise Reduction Rating)

TPU-COVERED GEL EAR PAD

As professionals, we understand what it feels like to wear hearing protection for hours on end. That's why **WarBird** has opted to pre-upgrade our sets. Gel ear pads and flexible headbands come standard on our premium rechargeable models, **INTREPID RC** and **INTREPID BT**.

TPU - Thermoplastic Polyurethane is a class of plastic made from polyurethane that has unique characteristics.

- Elasticity - Lending itself to shock and impact absorption
- Liquid Resistance - Resistant to oil, grease, and other residue stains
- Abrasion Resistance - Resistant to scrapes and abrasions helping to maintain form and appearance
- Heat Resistance - Resistant to low-to-medium grade heat sources, preventing melting and distortion of the cups
- High Strength - TPU is one of the toughest materials on the market, making it ideal for high stress situations

RECHARGEABLE

8-Hour Battery Life

Rechargeable technology eliminates the need to carry spare batteries. Use the included Micro USB cable for fast, 1.5 hour full recharge.

3-MODE OPERATION (INTREPID BT ONLY)

The **INTREPID BT**'s 3-Mode Operation keeps you in control of how the modes will function. Switch to Bluetooth only or Shooting Only to conserve battery life and get just the audio you want, or engage Bluetooth and Shooting mode for noise compression with amplification of the Bluetooth audio.

- Bluetooth and Shooting Mode (amplification/compression)
- Bluetooth Only
- Shooting Only

INCLUDED SEMI-RIGID CASE WITH MICRO-FLEECE INTERIOR

Just because we're in the shop, out in the field, or on the range doesn't mean life stops. For those who want to remain in touch with the world beyond their task, **WarBird** offers the **INTREPID BT** Model with Bluetooth connectivity to your mobile device.

- Audio input controls
- Incoming/Outgoing Call controls
- Quick Pairing (3 sec) within 3 feet

INTREPID BT

Flagship Hearing Protection

Our flagship hearing protection is packed with all the features **WarBird** has to offer. The Bluetooth capability is what sets these apart for those who need to remain connected while they work. You can leave your spare batteries at home, the **INTREPID BT** recharges with a common Micro USB cable.

- Flagship Hearing Protection
- Bluetooth Enabled
- NRR 23dB
- Two Omnidirectional Microphones
- Full Dynamic Range HD Speakers for Clear, Balanced Sound (40mm, 20 ohm)
- High-Definition Sound Effects
- Low Frequency Tuned for Natural Sound Clarity
- Sound Dampening Composite Housing
- Sound Active Compression - 0.01 Second Reaction Time
- HiFi Audio Input Jack - 3.5mm
- Positive Response Power, Volume and Select Buttons
- TPU-Covered Gel Ear Pad
- Comfort Headband with Metal Frame
- USB Charging Port (Rechargeable)
- Semi-Rigid Case Included

SKU	UPC CODE	DESCRIPTION

INTREPID RC

Protection, comfort and rechargeable convenience

Protection meets comfort and style in our Rechargeable Earmuffs. Ideal for shooting sports, heavy equipment operators, or just working around the yard. Focus clearly on the task at hand without losing touch with your environment. The **INTREPID RC** provides all of **WarBird**'s audio technologies without the Bluetooth for those important moments and tasks that shouldn't be interrupted. The **INTREPID RC** also features Micro USB recharging for reduced waste.

- NRR 23dB
- Two Omnidirectional Microphones
- Full Dynamic Range HD Speakers for Clear, Balanced Sound (40mm, 20 ohm)
- High-Definition Sound Effects
- Low Frequency Tuned for Natural Sound Clarity
- Sound Dampening Composite Housing
- Sound Active Compression- 0.01 Second Reaction Time
- HiFi Audio Input Jack- 3.5mm
- Positive Response Power, Volume and Select Buttons
- TPU-Covered Gel Ear Pad
- Comfort Headband with Metal Frame
- USB Charging Port (Rechargeable)
- Semi-Rigid Case Included

Note: **INTREPID RC** Model does not have Bluetooth capabilities
